13:17 Evenmo - I thought if I hid me, and they find me, then it's over. So I just wanted to get away.

13:18 At the southern tip, there were some who said that she had to swim.

13:19 Evenmo: - I took off my pants and backpack. It looked like a thick vein of the leg. There was some blood, but I did not bleed.

13:19 Evenmo - I swam out maybe 20 meters, but it was so cold and I could not bend his ankle properly.

13:19 - There were people everywhere.

13:19 Evenmo said she swam to shore.

13:20 She looked maybe 20 pieces in the water and a portion along the edge.

13:20 Evenmo wondered if she could swim or not. The sound of gunfire came closer.

13:21 Evenmo said to another that he had to swim because he was unharmed.

13:21 Another came out of the woods, and they ran together.

13:22 They called a friend. The friend said: "I can not hear what you say, because it is so loud sound of the shots." Then he put on.

13:23 Evenmo - I only remember that I ran, but I was obviously with the other two.

13:23 Evenmo shows the map where they run.

13:23 She says that she saw bullet strike the water and felt the bullets whizzed past her head.

13:24 Evenmo - I had enough to run and do not remember the entire trip.

13:24 At the pier so she someone who tried to start "Reiulf" and jumped on board.

13:24 They did not start, and Evenmo jumped out of the boat again.

13:25 Evenmo turned and saw that they had begun to calm. Then she jumped into the water and was hauled aboard the boat.

13:25 Those who were on board, disagreed about where to rest. Finally they decided to row in the direction of the other swam to pick up them too.

13:26 Evenmo tell of panic in the boat. One would jump out of the boat because it seemed useless to flee.

13:27 Evenmo: - Some began to wave to the defendant, for they thought it was the police.

13:28 Evenmo: - So he dishes weapon against the boat, and we lay completely flat in the boat.

13:28 - The moment seemed very long. It was very loud. Metal against metal sounds.

13:28 Evenmo - I got really hurt in the ear and beeping in your ear.

13:29 - After he had finished shooting on the boat, we hoisted another in the boat.

13:29 Evenmo show on the map about where the boat was when it was fired.

13:30 It was close enough to see the accused and see that he held a weapon.

13:30 Evenmo shows the map where she was perceived by the defendant.

13:31 Evenmo: - It was very quietly done. There was no hurry.

13:31 Engh: - How long he shot the boat?

13:31 Evenmo: - I have no idea. I lay on the floor of the boat. It was not that long.

13:32 Evenmo: - We started to row. Eventually there was a boat that would take us to the land. I thought it was unnecessary and thought they ought to help the others swim.

13:33 When they reached the shore, it was a little panicked because there were police officers there.

13:33 - When it had just been a police officer who had shot at us, explained Evenmo.

13:34 Evenmo - I was really afraid, for he was quite similar. I think I cried, "Do not shoot us!"

13:35 Evenmo did not know how serious her own fire damage was. She met an ambulance man and was told to sit in a car.

13:35 Eventually there came a minibus that was driving them home to one of the Red Cross workers. Evenmo bandaged the wound with a wet shirt.

13:36 Evenmo - I was just trying to sit there.

13:36 Evenmo was taken to Bærum Hospital and was operated there.

13:37 She still has some shrapnel in the foot again, but the damage not bother her much.

13:38 Engh: - When you are in camp and get hit, you see the defendant then?

13:38 Evenmo: - No, I never looked back. I thought it was a joke.

13:39 Engh ask about the other she spoke in a tent camp. Both were shot dead.

13:39 Evenmo can not remember seeing them after they fled the camp.

13:40 Engh: - How has it been with you?

13:41 Evenmo: - Right now it's okay.

13:41 She is in second grade in high school.

13:41 Lawyer Larsen has questions to Evenmo.

13:42 Larsen represents one of them Evenmo met during the flight.

13:42 Evenmo: - He seemed frightened. I was convinced of the way he behaved. He had obviously seen something like tila that it was unsafe here.

13:44 The court pauses until at 14

13:44 When the court shall consider an application for broadcasting.

14:01 The application applies to witnesses who are enrolled after the previous application for a broadcasting was treated.

14:02 Breivik talks with his defense Geir Lippestad entering the courtroom.

14:03 The judges return to the courtroom.

14:03 Harald Stanghelle from Aftenposten out the word on behalf of the media.

14:04 Stanghelle: - Roughly speaking, we can say that we are talking about the broadcast of three different groups of witnesses.

14:04 One is police officers who have come to the witness list.

14:05 The second group are witnesses who have expertise, such as extremism.

14:05 The third group are witnesses who have come to the question of sanity.

14:06 Stanghelle: - In our opinion the decision of 13 april a good guide for deciding this petition.

14:06 Basically this is an open court. The question is therefore whether some witnesses can be broadcast.

14:06 This does not mean that all information goes straight out. For example, parts of the indictment blacked out during the broadcast.

14:07 Stanghelle: - It is natural to follow up the license to broadcast police witnesses to allow the first group.

14:08 Regarding the second group, this is people who are unrelated to what happened 22 July, but that may explain the defendant's thought.

14:08 - In line with the open bar, the court has assumed, I see little reason why this group should be broadcast.

14:09 Stanghelle: - The experts will give evidence of open court. It is very valuable. In our opinion, it is very important for the understanding of the judgment that everything that goes on this part of the case (sane safety issue) can krinkastes.

14:10 Judge Arntzen speak up.

14:11 Prosecutors Holden goes through the new names.

14:11 Prosecutors want to exclude the witness from the police broadcast.

14:12 Holden points out that police witness working in the department of covert operations, and broadcast may be a problem at work.

14:12 The same goes for the other new police witness.

14:13 Prosecutors have no objections to the expert witnesses shall be kept.

14:14 In the case of witnesses who will speak about accountability, not the prosecution objected to broadcasting.

14:15 The exception is a witness to comment on Breivik's mother. In this case, the mother asked.

14:16 The defenders must account for his views on the broadcast of new witnesses.

14:16 Geir Lippestad said the accused wants the whole thing will be broadcast.

14:16 When it comes to police witnesses, the defense has no comments.

14:17 When it comes to experts, the defenders have received objections to the

broadcast from three witnesses.

14:18 The defense believes that when the four medical experts can be broadcast, the other broadcast. The exception is a child psychiatrist who is called up.

14:18 Breivik also want to make a comment, said Lippestad.

14:19 The judge gives the word to Breivik.

14:20 - I find it unacceptable that my ideological explanation was censored in its entirety and that the psychiatric expert testimony is broadcast. This creates an imbalance and to make me morbid to those who follow the case, said Breivik.

14:21 Mette Yvonne Larsen commented the application on behalf of aid lawyers.

14:21 Aid lawyers stay on the prosecuting authority, says Larsen.

14:22 Larsen: - We believe the general considerations on how the victims have suffered, can be broadcast. We think it should be presented in the same manner as the assessment of Breivik be presented.

14:23 Arntzen: The decision will be made available well in advance of the witnesses to give evidence.

14:23 The court is adjourned for today.

14:27 Tuesday, six victims from Utøya talk about their experiences.
